THE SITE

Investment site

- Located in the northern part of Ząbkowice Śląskie
- No residential buildings in the nearby area
- By the national road no. 8
- By the S8 expressway (under construction)

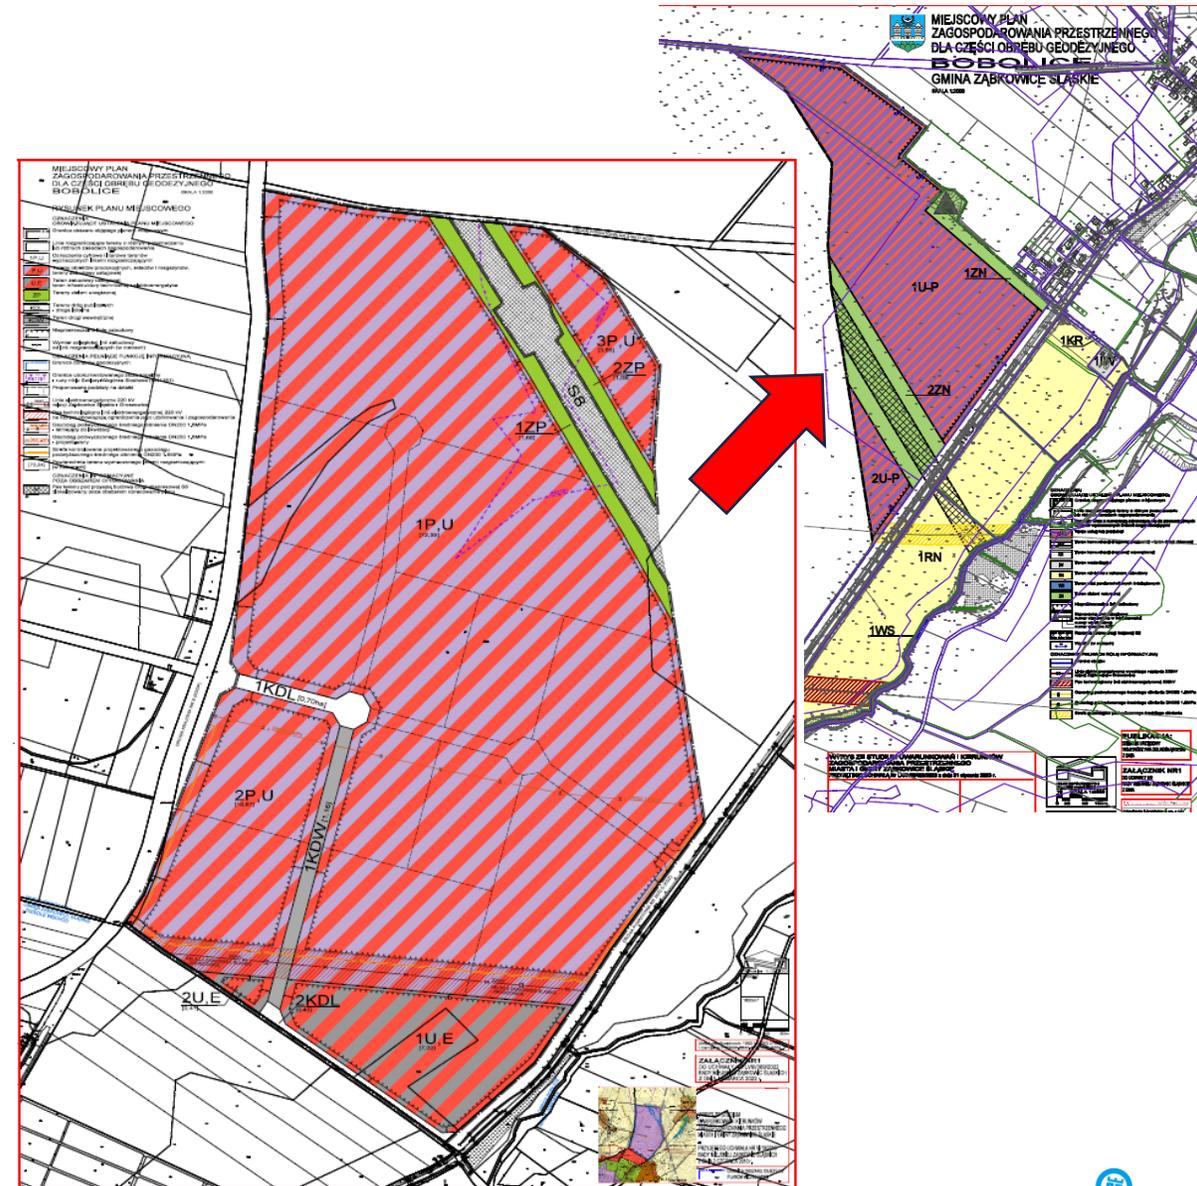

INDUSTRIAL LAND DEVELOPMENT

Arrangements of the Local Spatial Development Plan

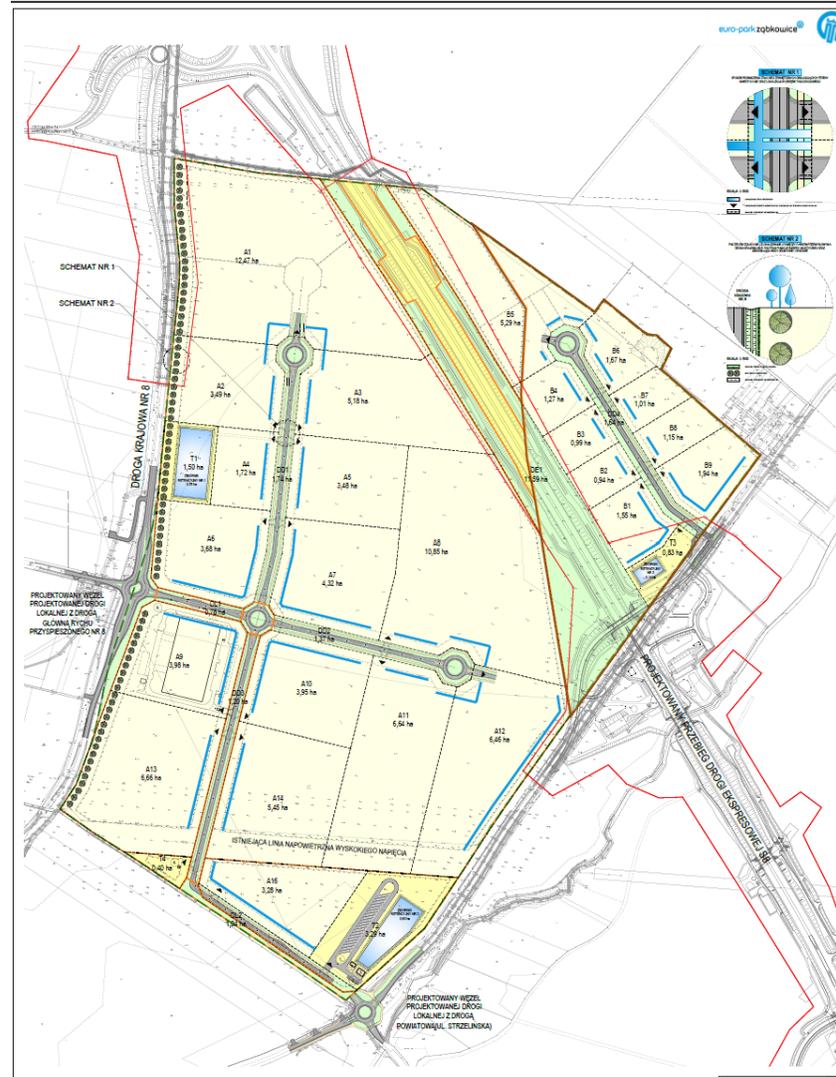

- **P,U Areas** – **production facilities**, warehouses and storages, service development areas
- **U,E Areas** – service buildings, technical infrastructure, power utilities
- **ZP Areas** – areas of decorated greenery
- Possibility of installing **photovoltaic devices**
- **1 parking space/5 workstations**
- Groundwater occurs locally at 1.30–2.0 m below ground level

Buildings hight	Max. height of buildings: 30 m Max. height of technical infrastructure facilities, technical structures and equipment and industrial installations: 45 m
Building coverage ratio	80%
Green area indicator	10%

INVESTMENT AREAS – the concept

- Possibility of land division into plots suitable for the project;
- Planned internal roads and truck parking areas;
- Social facilities for transit;

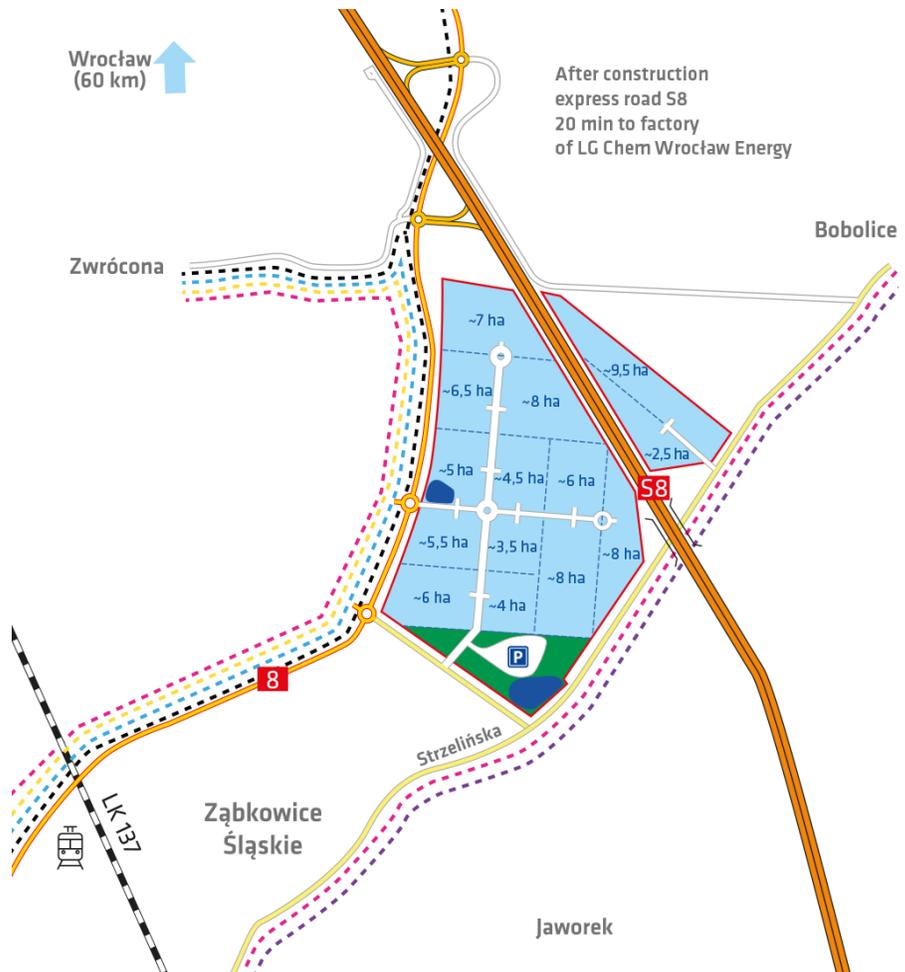

**Express road S8 (exit) -
under construction**

**National Road no 8 -
roundabout under construction**

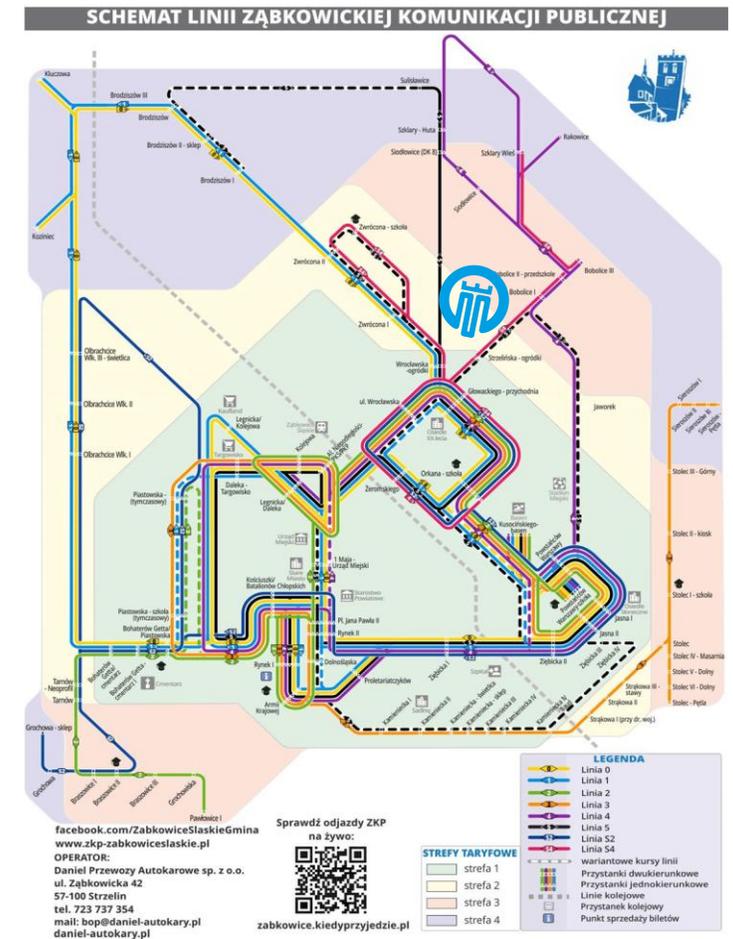

ROADS AND TRANSPORT

ROADS AND TRANSPORT

- DK8 – easy connection with Kobierzyce, Wrocław, A4 express road and Czech Republic
- S8 – even shorter time to reach strategic points
- Direct connections to Kamieniec, Dzierżoniów, Klodzko, Polanica

- S8 The planned expressway (Wrocław- Kłodzko)
- 8 National road DK 8
- Railway line no. 137 LK 137
- Bus Line 0
- Bus Line 1
- Bus Line 4
- Bus Line S4
- Bus Line 5

Public transport connects the EPZ area with the city centre and surrounding localities

Construction of S8

Work progress on S8 Wrocław-Kłodzko by sections
As of March 2026

	c. 64km	Completion date	Stage	Building permit
Task 1	Kobierzyce Pn- PD	September 27	Construction works	YES
Task 2	Kobierzyce-Jordanów	September 27	Construction works	YES
Task 3	Jordanów - Łagiewniki	September 27	Construction works	YES
Task 4	Łagiewniki- Niemcza		Contract	NO
Task 5	Niemcza - Ząbkowice	IIQ2028	Contract	NO
Task 6	Ząbkowice-Bardo	IIQ2028	Designing	NO
Task 7	Bardo-Kłodzko	n/d	Preparation	

The construction of the S8 expressway between Wrocław and Kłodzko has been divided into seven investment tasks, which are at various stages of preparation or implementation.

Sections 1–3 (Kobierzyce–Łagiewniki) are the most advanced – it obtained ZRID decisions and construction work has begun.

Sections 5 and 6, running through the EURO-PARK Ząbkowice area, are at the stage of obtaining ZRID decisions – applications have been submitted, and decisions are expected in 1Q2026.

Section 7 (Bardo–Kłodzko) remains at the stage of preparing environmental and study documentation (ZTEŚ).

Budowa S8

Work progress on S8 Wrocław-Kłodzko by sections
As of March 2026

Wrocław Airport Expansion

In 2024, a fuel base was built:

- 4 above-ground JET A-1 aviation fuel tanks
- capacity 400m³2 reloading modules enabling high capacity tanker refueling
- 1 unloading module
- 1 tank drainage station

2025:

- new parking apron for 14 aircraft,
- rapid exit road,
- new 2.5 km taxiway,
- de-icing area,
- reconstruction of existing taxiways.

INFRASTRUCTURE

ELECTRICITY

GPZ 220/110/20 kV

Ząbkowice -> 4 km from
the investment plot

GPZ 220 kV (440 kV)
high voltage line

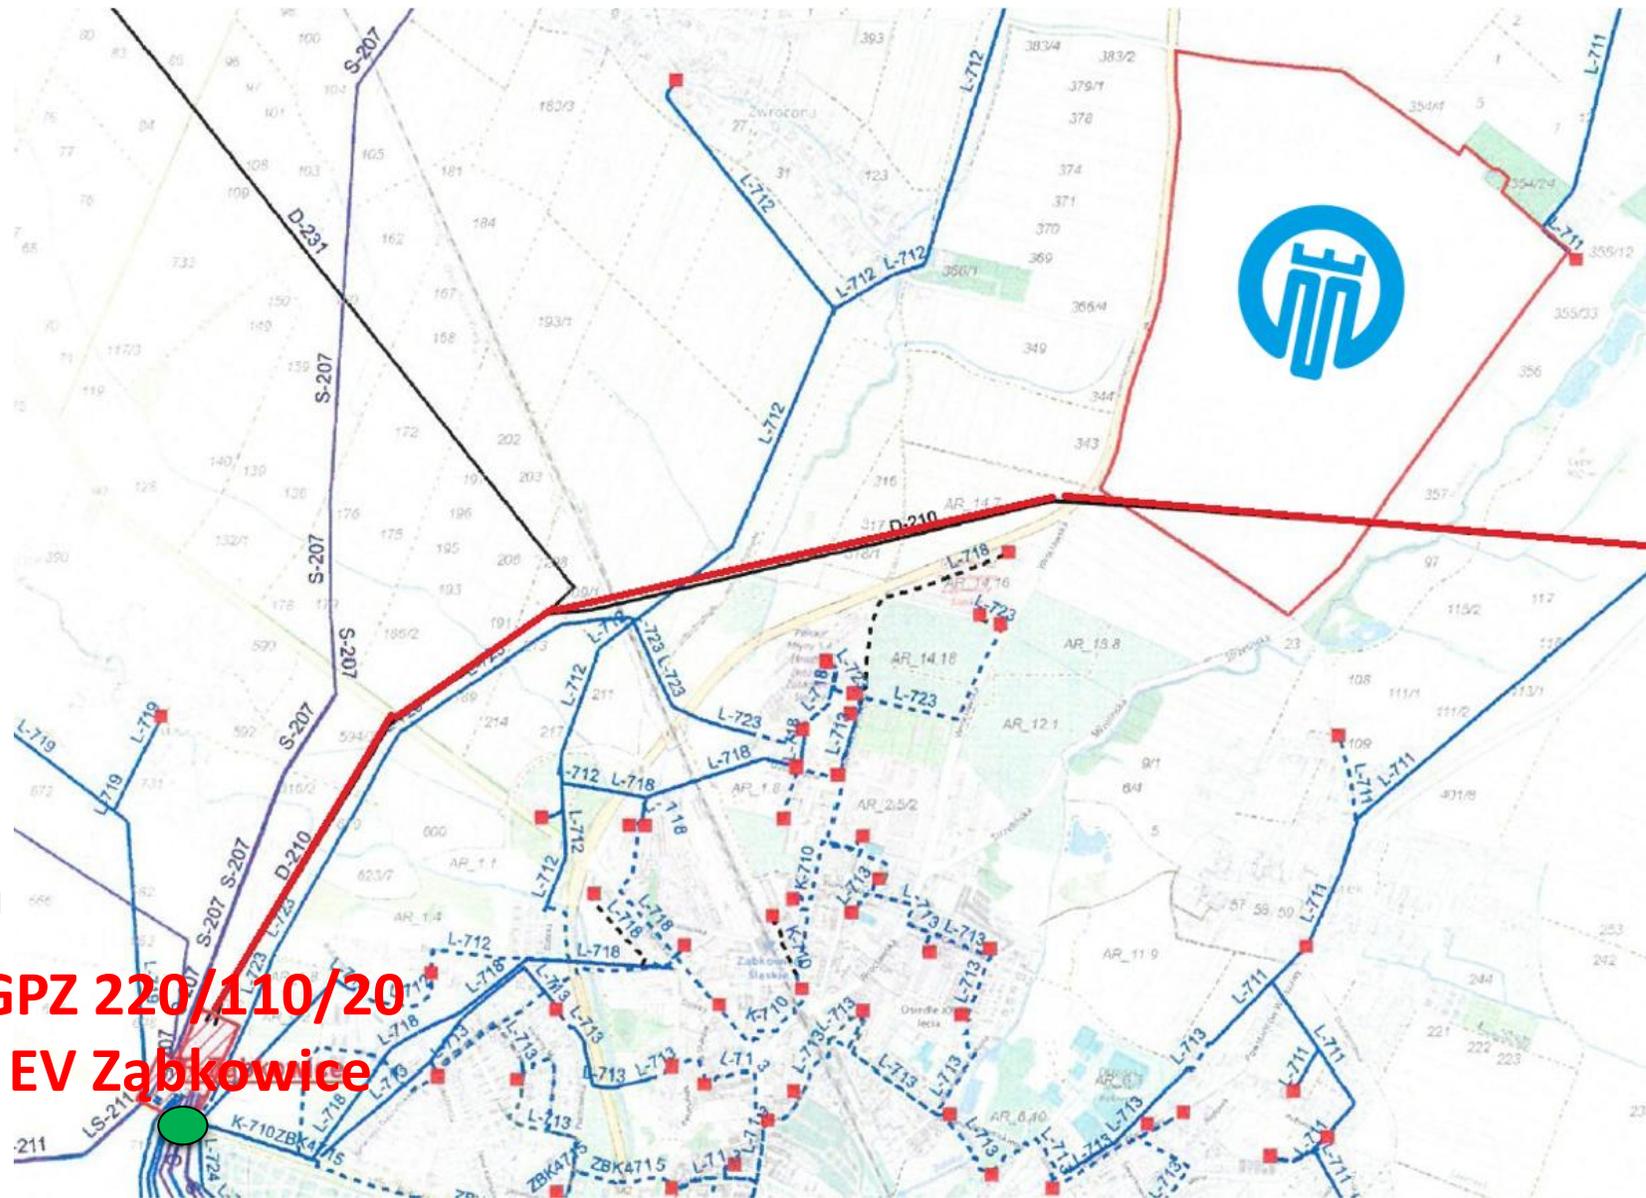

20kV line under construction

- for the power of 15 MW
Prospectively 110kV (if higher
demand - network analysis are
carried out)

**GPZ 220/110/20
EV Ząbkowice**

EV Ząbkowice**

Local spatial development plan indicates plots for photovoltaic and wind power installations

GAS SUPPLY

- Gas reduction and metering station (ZZU Zwrócona) on a high-pressure gas pipeline with a pressure of 6.3 MPa.
- Connected to a distribution gas pipeline of increased medium pressure DN 250 and DN 200-PN, 1.6 Mpa.
- A detailed description of the possibilities and conditions for supplying the area with gas will be possible after obtaining the preliminary conditions for connecting the property to the gas network.

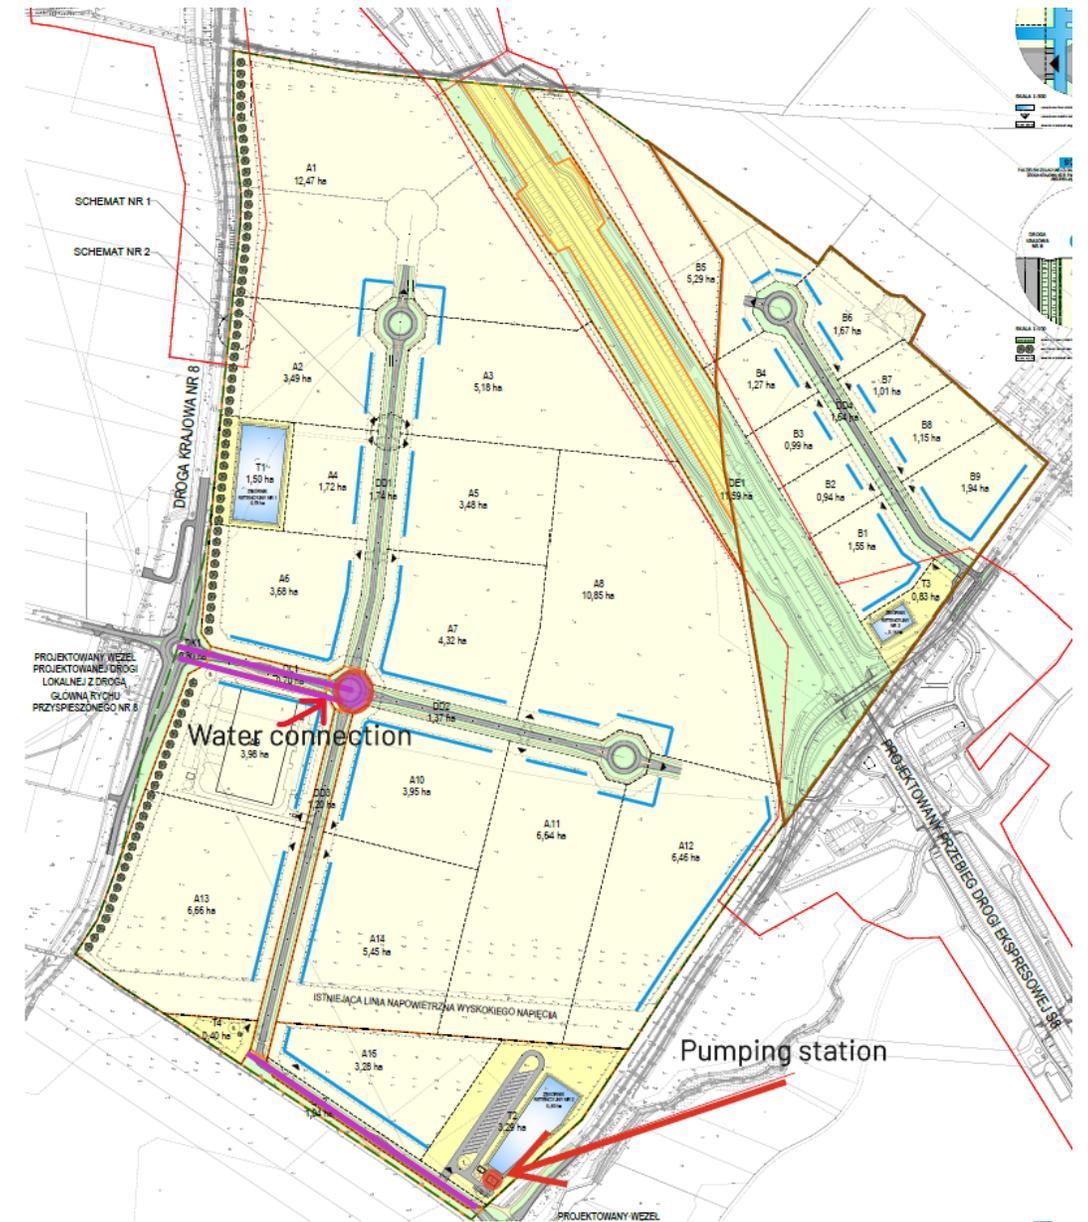

WATER SUPPLY SYSTEM

As part of the development of the EURO-PARK Ząbkowice Śląskie Investment Zone, **significant investments in the water and sewage infrastructure are being made.**

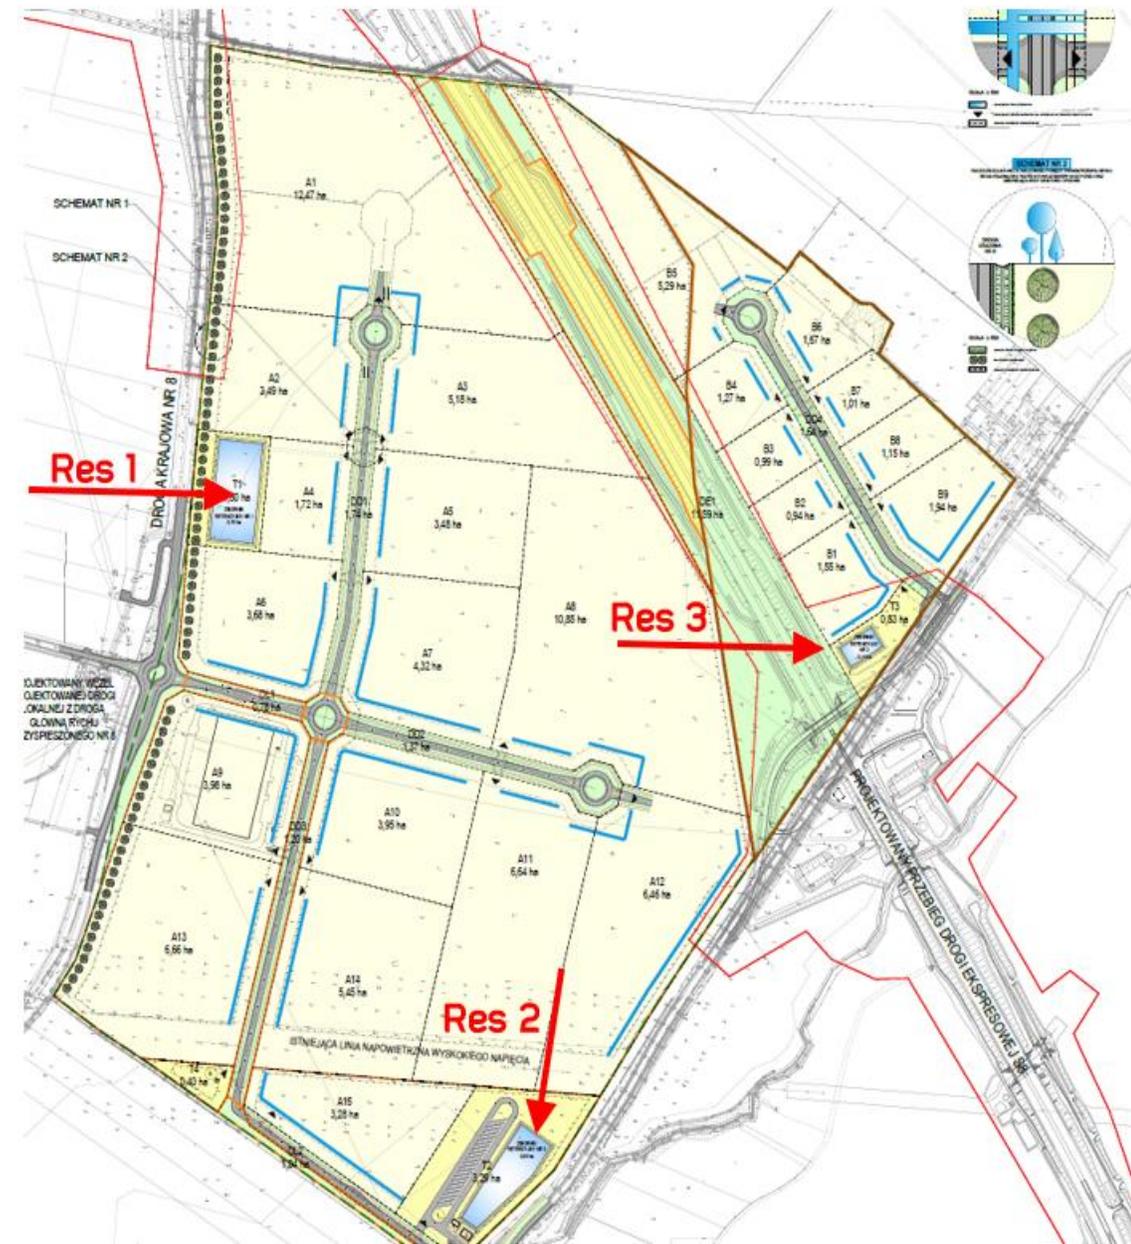

Scope of the works:

- Modernisation of the wastewater treatment plant on Ruczna Street;
- Modernisation of the water intake in Olbrachcice Wielkie;
- Construction of water transmission network: Connecting the intakes in Olbrachcice Wielkie with the area of the Investment Zone.
- Extension and reconstruction of the sanitary sewage system: Ensuring efficient sewage disposal in the Investment Area.

Rainwater

- Preliminary decisions on rainwater drainage in the EURO-PARK area have been issued;
- EPZ shall take charge of some rainwater at the site, but the Investor is obliged to partially manage the rainwater at the investor's plot
- Drainage system with three retention basins was prepared:
 - 1 retention-infiltration-evaporation reservoir (reservoir 3)
 - 2 retention and evaporation reservoirs (reservoirs 1 and 2)
- The system will be adapted to the level of development and the needs of the investors.

Utilities – summary

		GENERAL INFORMATION
ELECTRICITY	Existing power lines/GPZ	220/110/20 kV
	Connection to the site	15 MW connection capacity* (*The exact volume of energy available - determined case-by-case)
NATURAL GAS	Gas feeding pressure	1,6 MPa (= 16 bar)
	Gas Pipeline diameter	DN250 / DN315 (under construction)
	Connection to the site	500m ³ /h -NOW
		Up to 1500 m ³ /h - 16-18 months
1500-2800 m ³ /h - 36 months		
DRINKING WATER	Pipeline diameter - current	ø 160
	Quantity of water supply	QAv 3000m ³ /d
	Pipeline diameter - planned	ø 315 / 225
INDUSTRIAL WATER	Pipeline diameter	ø 160
WASTEWATER / SEWEGE	Domestic wastewater may be discharged to the municipal treatment plant	limited quantity - up to c.a. 2000 m ³ /d

What we offer?

- Investment area with all necessary utilities
- Investment plots of various sizes, depending on the investor's needs
- Social facilities for the transit
- Support in the process of investment realisation
- Support in the process of obtaining tax exemptions from both the Municipality of Ząbkowice and the Special Economic Zone
- Possible rental of fully prepared production and storage hall, equipped with necessary utilities and social facilities

Tax benefits offered by the Ząbkowice Commune

- property tax exemption - land, buildings, structures or parts thereof, intended for business activities
- implementation of the initial investment
- maximum aid - up to 25% of eligible costs
- up to 5 years

CONDITIONS:

- financial contribution - at least 25%,
- completion of the initial investment within 3 years,
- continuation of the investment for at least 5 years

EXAMPLE

Planned total eligible costs: **PLN 14 020 000 net**

Maximum aid intensity for a large entrepreneur in the Dolnośląskie Voivodeship: **25%**

14 020 000 x 25% = PLN 3 505 000

Amount of public aid available: PLN 3 505 000.

PUBLIC AID INVESTMENT SUPPORT - INCOME TAX EXEMPTION

Entrepreneur making a new investment in Poland can benefit from tax relief within the Polish Investment Zone.

Lower Silesia

Large Company

Calculation of exemption amount

	Large company	Medium Company	Small Company
Public aid intensity	25%	35%	45%
Investment value	PLN 80 000 000	PLN 20 000 000	PLN 5 000 000
Total value of the usable tax exemption limit	PLN 20 000 000	PLN 7 000 000	PLN 2 250 000
CIT rate	19%	19%	19%
Non-taxable company income	PLN 105 263 000	PLN 36 842 000	PLN 11 843 000

$$\text{(Investment value x aid intensity) / CIT rate} = \text{non-taxable company income}$$

Production and service hall

Key features of the project:

- 1 700m² of office space
- 3 production and storage areas with social and office facilities - total area of approx. 10 000m²
- Possible modifications for a specific tenant without changing the main assumptions

Presenting our investment sites to investors

THE PRICE

The **selling price** of the investment plot is to be determined during negotiations with the interested Party

The following factors are taken into account when determining the price:

- the size of the plot
- level of development, preparation of the plot
- location of the plot

The Investor is required to supply utilities from the connection to the plot.

The **rental price** of the production and service **hall** is to be determined during negotiations with the interested Party.
